

“Modify your steering gear to be a RockRam Cylinder Assist Steering Gear”

AGR produces the ORIGINAL RockRam Cylinder Assist Steering! Our years of experience will build you a Cylinder Assist Gear that reacts quicker and more powerful than our competitors gears at the same time saving you money vs. purchasing a brand new RockRam Gearbox.

Our Services to completely disassemble, machine and port the housing, modify and rebalance your directional valve, refinish the housing with Steel-It Stainless Steel coating, Billet Aluminum Caps, and reassemble with our factory warranty is only **\$395.00**

Watch our YouTube Video Titled “Hydro Assist Steering, AGR Modifies your Steering Gear Box to be RockRam Steering”

Benefits to using AGR Performance Steering are

- Factory 1-year warranty that can be DOUBLED to a 2-year warranty
- Valve modifying, and porting delivers quicker and more powerful steering
- Our Machining delivers the SAME amount of VOLUME to both the steering gearbox and the assist cylinder
- While we have your box apart, we completely rebuild it an in many cases machine it for additional larger bearings
- Steel-It Stainless Steel Coating
- Billet Aluminum end cap trims
